

Pizzeria Anarchia is a squat in Vienna and has been squatted for over two years. During this time we were able to try out many ideas and projects, and to find possibilities to live alternative ways apart of the capitalist system. Lots of people enjoyed Pizza (Vokü), took part in discussions, readings, info-events or enjoyed concerts and movies in the weekly cinema. Workshops like book-binding, bike-kitchen and language exchanges took place. Also the pizza-collective tries to help other projects and houses whenever possible. Last but not least the Pizzeria is a room for political action and social meeting place for many, partly away from the capitalist world.

We live here, we have come to know friends, companer@s and allies; now they want to take this place from us. We will do everything to avoid the eviction of this house – but we need your support! Join our “Pizza bleibt – Squat the World” – ActionDays from 20th April to 1st of May 2014!

There will be a colourful program with theoretical, practical and creative workshops, building, direct actions, info events, discussions, concerts, parties and more! We invite you to our action and to defend the house together. But also to meet, exchange our experiences and to network. The realisation of all these ideas depends on your participation and the participation of everyone. If you have something to add or if you have any proposal for the program just contact us or join us at our place. We are looking forward to your contribution!

We will organize sleeping places for everyone. If you have questions or special needs concerning sleeping spaces, or if you can offer a sleeping place, please let us know: [goodnightwhitepride@riseup.net](mailto:goodnightwhitepride@riseup.net)

You can find further information about the situation and the history of Pizzeria Anarchia on our blog. A piece-by-piece program for the ActionDays will follow. If you want to contribute to the program or have any questions, please contact us via: [pizzeria@riseup.net](mailto:pizzeria@riseup.net)

Solidarity is our weapon! Squat the World! Pizzeria Anarchia stays!
